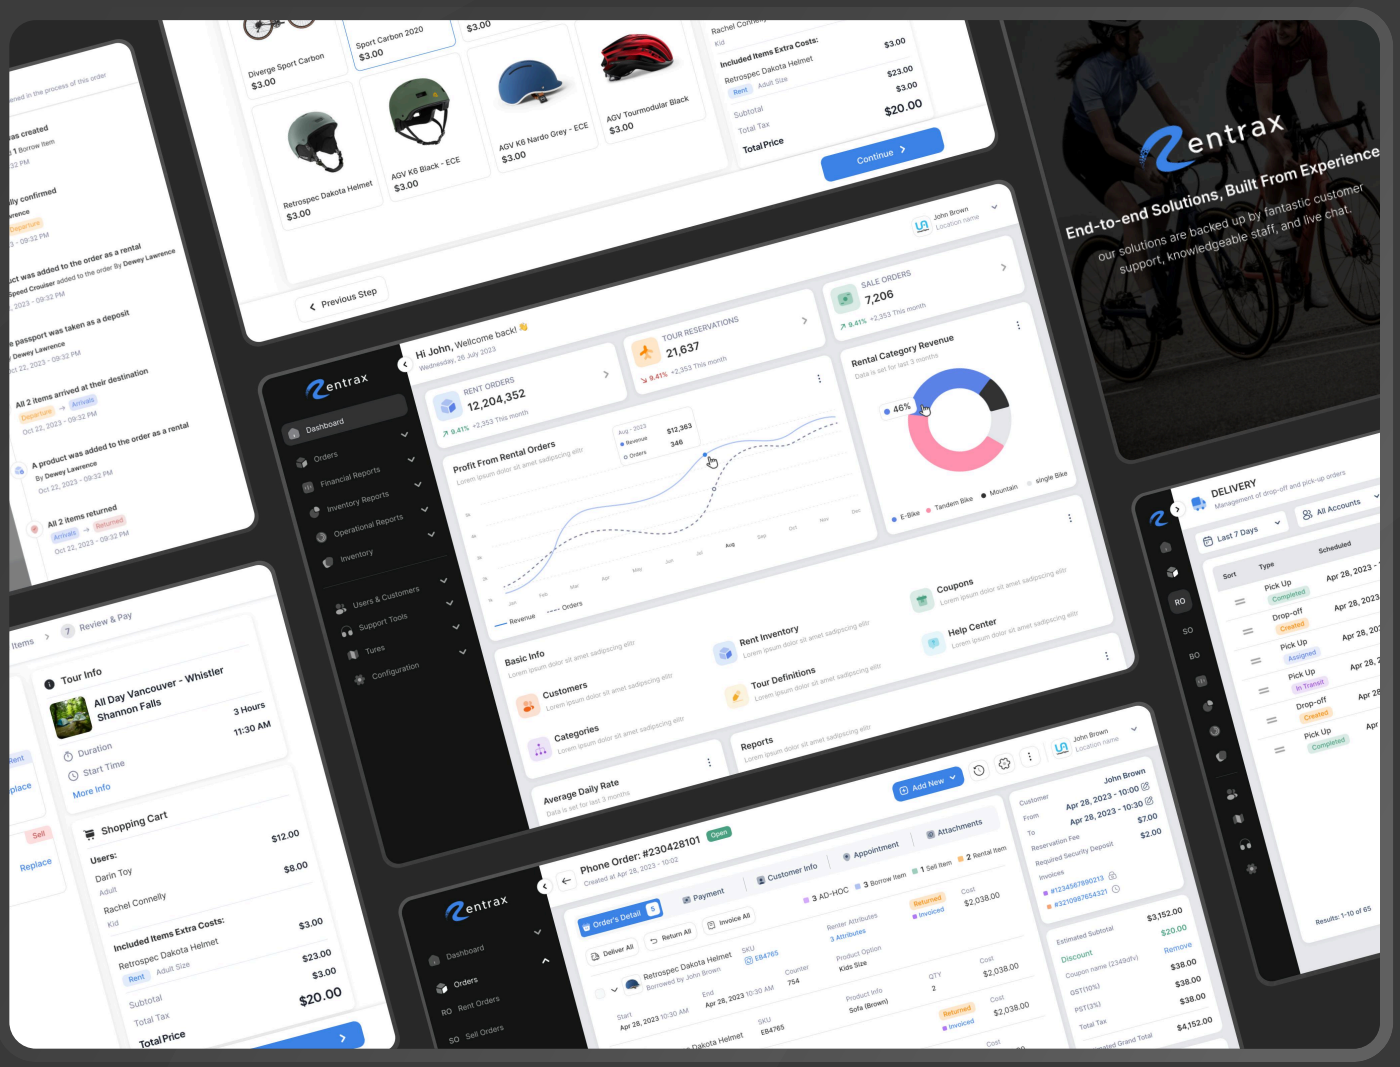
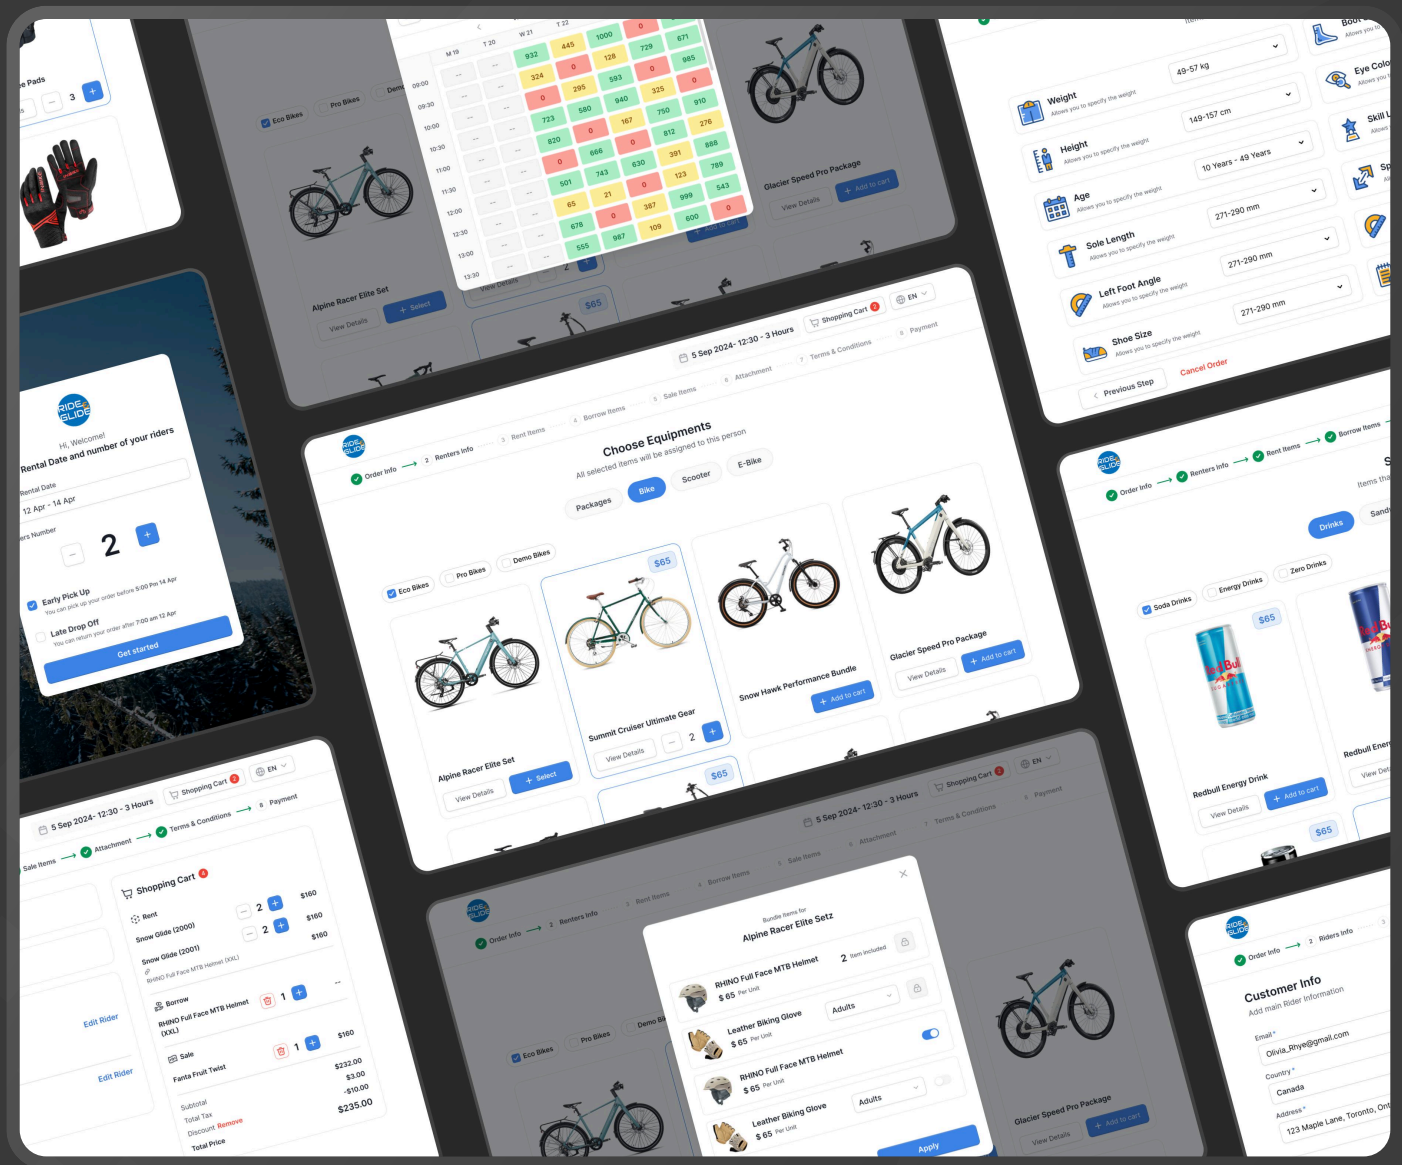
Rentrax Dashboard

Rentrax is a comprehensive B2B rental management system offering end-to-end solutions for businesses to streamline rental operations.

Rentrax Panel

Rentrax is a comprehensive system for rental, sales, and Borrow services, offering various features such as online order placement, inventory management, product availability calendar, and more. It is designed to streamline the process for both service providers and customers, ensuring efficiency and ease of use.



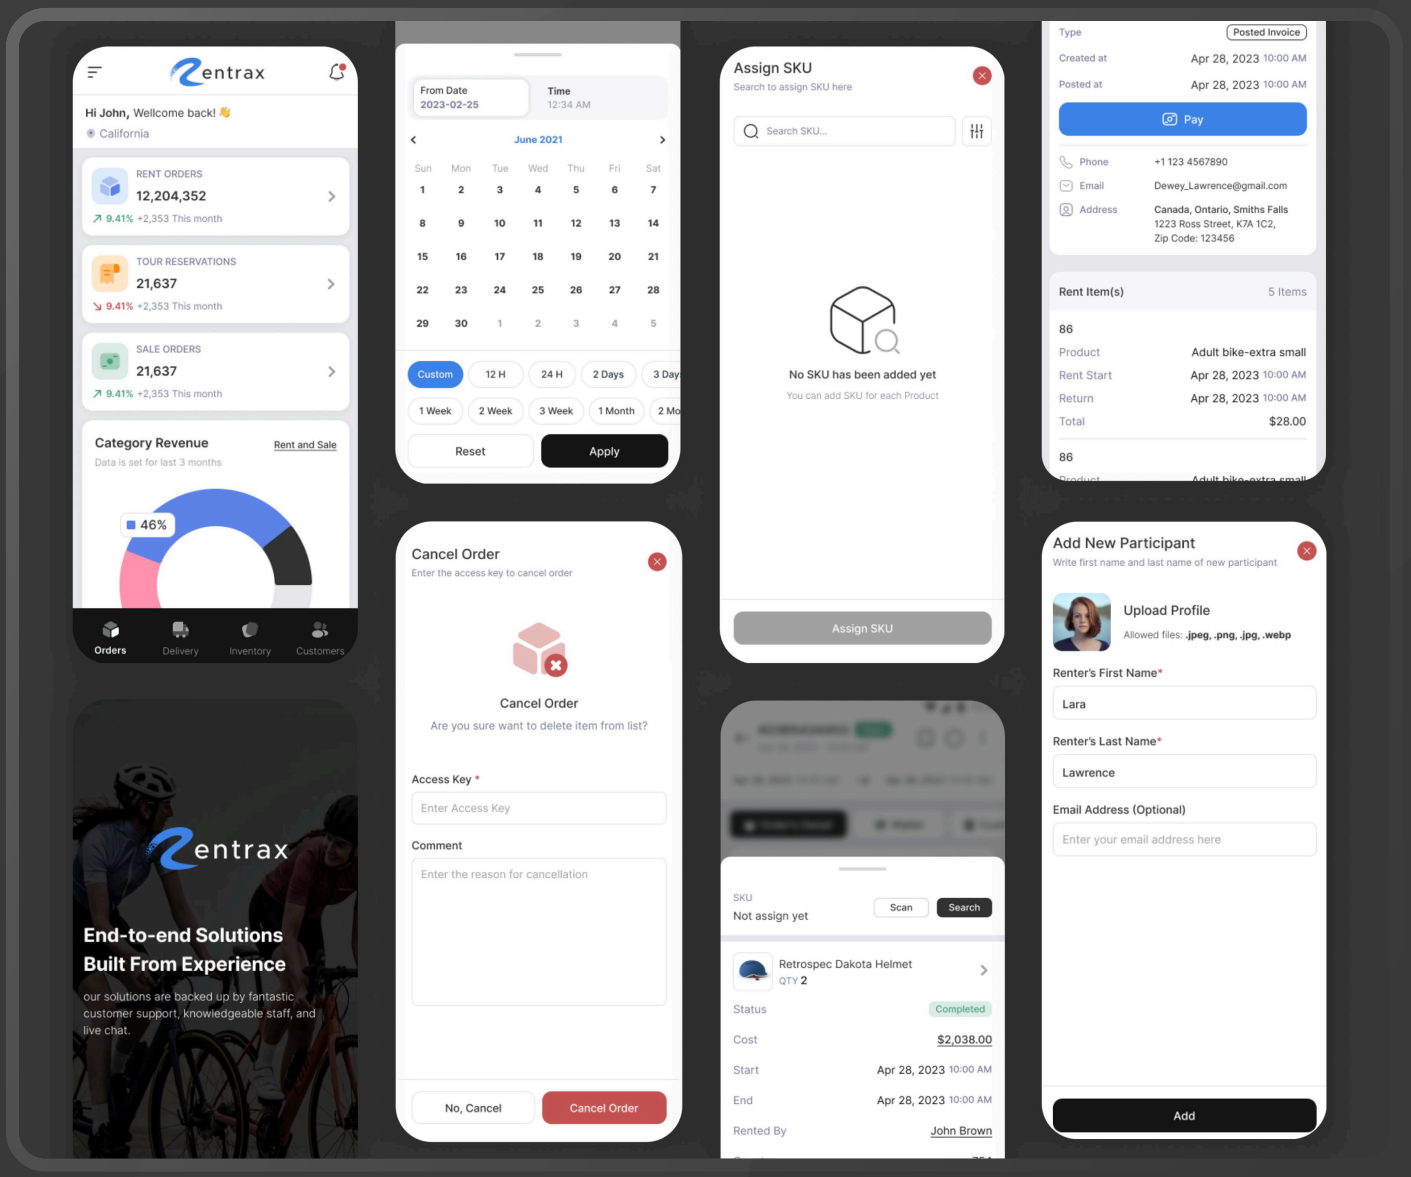


Rentrax Order Form

The Rentrax order form is a web-based solution designed to simplify the rental process for bicycles and ski equipment. It provides a clear and structured interface for capturing customer details, selecting products, and managing rental durations with ease. By streamlining the booking flow and reducing manual steps, it helps staff handle orders more efficiently while ensuring a smooth and user-friendly experience for customers.

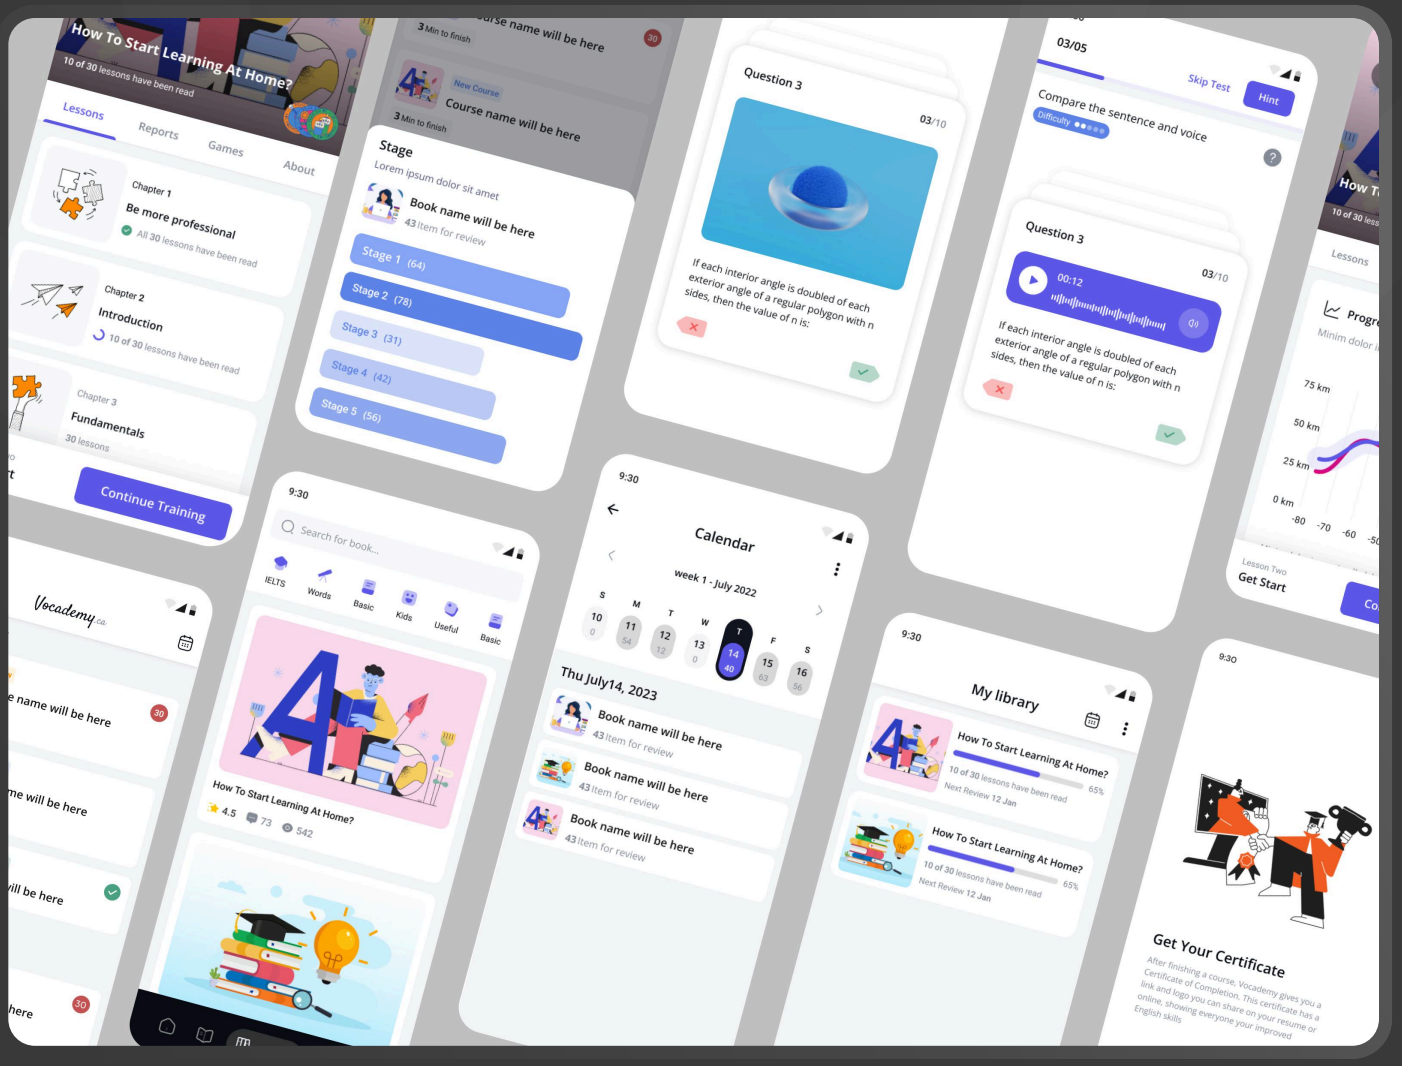
Rentrax Application

The Rentrax app offers most of the features available on the web panel. Additionally, it includes the capability to scan and manage products, making the experience more convenient for Staffs.



Tizhoosh Application

The Tizhoosh app is designed for students preparing for gifted and entrance exams. It offers daily practice tests, detailed performance analysis, and personalized insights to help students track their progress. In addition, the app provides reinforcement and remedial exams, enabling learners to strengthen weak areas and improve their overall readiness in a structured and engaging way.



Vocademy Application

Vocademy is a language learning app that offers a variety of lessons and games, utilizing a unique method to make learning English easier and more intelligent. The app also features a rewards system and the ability to play with friends, adding a fun and engaging element to the learning process.

Blubank

BluBank is an Iranian neobank that provides innovative digital banking solutions. My primary responsibility was to redesign the landing page along with other key pages that introduce the brand and its offerings. This comprehensive project required creating designs for both desktop and responsive (mobile) versions to ensure an optimal user experience across all devices. The redesign focused on enhancing visual appeal, user engagement, and overall navigability, aligning with the brand's modern, tech-forward identity.

THANK YOU!
